If the request for the withdrawal is received prior to the issuance or publication of notice, the staff shall not place the item on the agenda for the public hearing at which it was to be considered.
 2. **If a Petitioner wishes to withdraw a Petition after notice** of the public hearing has been published, the Petitioner shall submit a written request to the Plan Commission or its staff prior to the public hearing, or at the public hearing prior to the receipt of evidence or testimony on the Petition. The decision to accept the withdrawal shall be made at the

public hearing when the Petition was to be considered, and shall be at the discretion of the Plan Commission. If the withdrawal of the Petition is approved by the Plan Commission, the Petitioner shall not re-file a substantially similar request within a period of six (6) months from the date of said withdrawal.

3. No petition may be withdrawn by the Petitioner after the Plan Commission has received any evidence or testimony regarding the Petition at the public hearing scheduled on the Petition.

N. Continuances:

1. Requests for continuances by Petitioners or remonstrators shall be considered at the beginning of each public hearing agenda prior to calling the first Petition for public hearing listed on the agenda.
2. A continuance request may be made in person or in writing and shall:

Such written request shall include the date of the next regularly scheduled meeting of the Plan Commission.
4. However, the matter shall not be considered continued if it is a Petition for Zone Map Change and the Plan Commission is required to conduct a public hearing within sixty (60) days of its submission according to IC 36-7-4-608(b). Once a public hearing on a rezoning is held, it may be continued from time to time as may be found necessary by the Plan Commission pursuant to IC 36-7-4-604(b)(8).
5. Continuances may be granted by motion of the Plan Commission at the hearing upon a showing of good cause (e.g., the need for additional time for negotiation between Petitioners and remonstrators which will reasonably increase the likelihood of agreement between the parties; the unforeseeable need for additional information; or, the unforeseeable

absence of a key witness) and provided that the non-requesting party does not suffer a significant hardship because of the grant of a continuance (e.g., presence of remonstrators at the hearing who would be inconvenienced by having to reappear; or, additional expense incurred by Petitioner as a result of time delay).

6. The Plan Commission may, at any time, in its discretion, continue the hearing of any petition.
7. This discretion shall include the ability to continue a hearing if additional documentation, amendments, or revisions to a Petition were not received by 4:00 p.m. on the Monday prior to the scheduled hearing of a Petition, and the late receipt of such items did not allow for adequate review by the Plan Commission, Secretary, or Staff.
8. On its own motion, the Plan Commission may determine if re-notification of interested property owners shall be required for any continued hearing.
9. Neither Petitioners nor remonstrators shall be granted more than two (2) requests for continuance of a Petition unless, in the determination of the Plan Commission, a significant hardship can be demonstrated by the requesting party. If a significant hardship cannot be demonstrated, the Petition shall be heard as scheduled.

O. Amendments: Requests to amend any Petition may be filed in writing prior to or at the beginning of any hearing, or may be made orally at the hearing. II Instructions

A. Personal Information

1. Name: Indiana Law requires that a petition for a re-zone be made by an owner of at least 50% of the property.
2. Address: The current mailing address of the applicant.
3. Phone Numbers: These are necessary for communications between the Executive Director and the applicant during the re-zoning process.

B. Re-zone Property Information

4. The Section, Township, and Range can be found at the beginning of your legal description on your deed or at the Ripley County Surveyor's Office.
5. The Tax Parcel Number can be found on your tax statement, from the Auditor's Office, or the Surveyor's Office. The Executive Director may be able to furnish this information. If a new lot has been created, the new survey and deed will need to be recorded in the Recorder's Office, before the Auditor will issue a new Tax Parcel Number.
6. Proof of ownership can be a deed or a land contract. If it is an unrecorded land contract, a copy of the contract will be necessary. The location of your deed or land contract is sometimes marked in the right hand corner of the first page. If not, the information can be obtained in the Recorder's Office.
7. A survey is not necessary for a re-zone. If one can be found in the recorder's office, the location of the survey is being requested. A copy of the survey (recorded or not) could be helpful at the hearing and for drawing the site plan.

C. Rezone Information

8. The current zone of the petitioner's property is noted on the Ripley County Zone Maps. Ask the Executive Director or the Ripley County Surveyor's Office for assistance. The permitted uses for each zone can be found in the Ripley County Area Zone Code. The zone being requested must match the intended use of the petitioner's property.
9. All business uses in the Roadside Business Zone require approval of the Board of Zoning Appeals in accordance with the Special Exception procedure set forth in Sec 80.24 of Ripley County Area Zone Code. Meeting the requirements of the Special Exception before the Plan Commission hearing will helpful in gaining the re-zone.
10. The acres to be re-zoned do not have to be the entire tract of land owned by the petitioner. The petitioner may want to re-zone only a part of the parent tract. Only the acres asking to be re-zoned should be cited.

11. The petitioner does not have to disclose the purpose for the re-zone, but it could be helpful in gaining the approval of the Board. The Board does have the obligation to look at the most intense use that is permitted for the zone being requested and judge whether it is appropriate for the area.
12. The future land use map is found in the Ripley County Comprehensive Plan. The Board will be using this as a guide for making a decision on the petitioner's request. The Executive Director and the Ripley County Surveyor's Office has a copy of this plan. If the petitioner's request does not fit with the Comprehensive Plan, he or she should be prepared to explain how granting the request would benefit Ripley County.

D. Utilities & Infrastructure Information

13. A letter from the appropriate water company stating their permission for service could be requested. If the site will be furnished water by well or cistern, a letter from the Health Department may be needed.
14. A letter from the appropriate electric company stating their permission for service may be requested.
15. City sewer may not be necessary for the intended use under your requested re-zone. If it is and it is not currently being provided, a letter from the appropriate sewer company stating their permission for service will be requested. If a septic tank is currently being used, or is intended to provide the sewer system, a letter from the Health Department stating the tank's current capabilities or stating the Department's approval for a septic tank will be necessary.
16. Name the number of entries to the proposed re-zone area and the width in feet of the driveways.
17. Traffic flow may be an issue with the new intended use. The name of the nearest road will help the Plan Commission and the Governing Body determine if any increased traffic will become a problem.
18. The proposed re-zone area may or may not be on a major road. The distance to a major road may help the Plan Commission and the Governing Body determine if congestion will become a problem.
19. The new intended use may require parking space. The number of spaces available would be helpful in determining whether there will be adequate parking.
20. The new intended use may require new structures. Adequate space for the structure and setback lines will be reviewed.

NOTICE OF AGRICULTURAL ACTIVITY

TO: ALL APPLICANTS FOR IMPROVEMENT LOCATION PERMITS FOR HOMES IN AGRICULTURAL ZONED DISTRICTS IN RIPLEY COUNTY, INDIANA.

This notice is given to you because of your application for a Improvement Location permit to build or move a home into an area of Ripley County that is zoned for Agriculture.

The purpose of this notice is to assure you are aware that all agricultural operations are allowed in this area.

Agricultural activity may include, but is not limited to, grazing of livestock, confined feeding of livestock, application of animal manure to land, application of pesticides and fertilizer to fields and growing of crops, creation of dust from field operations and noise from livestock and machinery operations at all hours.

Single-family dwellings are permitted uses of land in an Agricultural Zone, and this is not restricted to farm families. However, people who choose to live in these areas must understand that agricultural operations may be occurring nearby.

Indiana has a "RIGHT TO FARM" law that protects farm operations from unwarranted nuisance suits by neighbors who move next to an existing farm operation. Farm operations do not constitute a nuisance so long as they are not negligently maintained, do not endanger human health and do not cause bodily injury to third parties.

By signing this notice form you verify that you have received it, read it and understand it. You are not giving up the right to seek redress for negligence by individuals associated with a farm operation or by other residents of the area.

The definition of a Variance is: A modification of the specific requirements of the Code (Ripley County Area Zoning Codes) granted by the Board in accordance with the terms of this Code for the purpose of assuring that no property, because of special circumstances applicable to it, shall be deprived of privileges commonly enjoyed by other properties in the same vicinity and district.

Variations are adjustments to the code. The petitioner needs to prove that there are conditions or reasons that the applicant cannot adhere to the code or laws set forth by the County Commissioners. The Ripley County Zoning Ordinances cannot fit every situation so adjustments are allowed, but only if there is something unique or unusual about the property in question. Financial gain or just for convenience are not good reasons for an adjustment to the code.

The answers to these questions are the criteria upon which the Board of Zoning Appeals must base their decisions. Below each question is slightly re-written to help the applicant understand the nature of the question. Along with the answer, try to state the reasoning behind the answers. The answers that the applicant gives at the hearing will be considered the “finding of facts” and will be the testimony of the applicant. Consider each question carefully.

1. The variance cannot hurt or be dangerous to anyone or their property.
2. A variance cannot affect the neighbor’s property or their use of it in any negative way.
3. The situation or condition is such, that it does not make sense to obey the ordinance. It is not practical.

4. There is a condition or situation for the petitioner's property that is different from the neighbor's property that keeps the petitioner from being allowed to use his/her property in the same manner as his/her neighbor.
5. A variance is the only way that the petitioner can be allowed to use his property in the same manner as his/her neighbor's.
6. The granting of this variance will not change the look or feel of the community. No one will notice the difference.

E. Statements regarding Subdivision

- 27. It is the responsibility of the applicant and/or the surveyor involved to understand and know the Ripley County Ordinances.
- 28. It is the responsibility of the applicant and/or surveyor involved to understand and know the Ripley County Area Subdivision Control Code.
- 29. If there are variances involved it is important to understand the following statements:

The definition of a Variance is: A modification of the specific requirements of the Code (Ripley County Area Zoning Codes) granted by the Board in accordance with the terms of this Code for the purpose of assuring that no property, because of special circumstances applicable to it, shall be deprived of privileges commonly enjoyed by other properties in the same vicinity and district.

Variances are adjustments to the code. The petitioner needs to prove that there are conditions or reasons that the applicant cannot adhere to the code or laws set forth by the County Commissioners. The Ripley County Zoning Ordinances cannot fit every situation so adjustments are allowed, but only if there is something unique or unusual about the property in question. Financial gain or just for convenience sake are not good reasons for an adjustment to the code.

The answers to these questions are the criteria upon which the Board must base their decisions. Below each question is slightly re-written to help the applicant understand the nature of the question. Along with the answer, try to state the reasoning behind the answers. The answers that the applicant gives at the hearing will be considered the “finding of facts” and will be the testimony of the applicant. Consider each question carefully.

- 1. The variance cannot hurt or be dangerous to anyone or their property.
- 2. A variance cannot affect the neighbor’s property or their use of it in any negative way.
- 3. The situation or condition is such, that it does not make sense to obey the ordinance. It is not practical.

4. There is a condition or situation for the petitioner's property that is different from the neighbor's property that keeps the petitioner from being allowed to use his/her property in the same manner as his/her neighbor.
5. A variance is the only way that the petitioner can be allowed to use his property in the same manner as his/her neighbor's.
6. The granting of this variance will not change the look or feel of the community. No one will notice the difference.

Meeting Information

1. A subdivision will be heard by the Ripley County Area Plan Commission. Their meetings are held the first Tuesday of every month. They will either deny or approve the proposed subdivision at the first hearing.
2. If the proposed subdivision is approved, it will only be primary approval. The applicant must wait at least 30 days in order to gain secondary approval. If all conditions set forth by the Plan Commission has been met and no remonstrance has been filed, secondary approval will automatically be given.
3. At the end of the required waiting time, the applicant must pick up the signed approved plat and record them at the Recorder's Office and the Auditor's Office within six (6) months. If after 6 months of the date that the Subdivision has been signed and certified by the President of the Commission it has not been recorded, the subdivision may not be recorded and the plat becomes null and void.
4. The Deadline for filing for a subdivision is no later than 3:00 P.M. on a date, which is at least 15 business days prior to the initial hearing before the Plan Commission Meeting at which the Petition is to be considered.
5. No petitioner is to contact any member of the Ripley County Area Plan Commission in advance of a public hearing with the intent to influence the Plan Commission member's action on such petition. If there are any questions regarding the proposed subdivision, please contact the Executive Director.
6. It is the responsibility of the petitioner to "state his case" and convince the Plan Commission that the subdivision should be granted. Any other type of relevant information should be brought to the meeting. Be prepared.
